

# OWL WATERPROOFING SOLUTIONS

## Super Quick Primer

## TECHNICAL DATA SHEET

### Description

Developed to meet the demand for a quicker yet still penetrating single pack primer. Whilst most other single pack Pu primers available to professional roofers are tack free in times from 2hrs our Quick Prime is ready to be overcoated in times from just 10 minutes! This creates a huge time saving when the area to be primed is small and you as the contractor would usually have to wait before installing the membrane. Not anymore! Compatible with most substrates including Concrete, wood and bituminous membranes.

50

### Technical data

<b>Colour</b>	Amber
<b>Specific weight at 20°C</b>	1±0.01 kg/l
<b>Viscosity at 20°C</b>	30±10 mPa.s (speed 100 – Gr.1)
<b>Solids</b>	46% by weight 40% by volume
<b>Theoretical consumption</b>	150 g/m <sup>2</sup>
<b>ASTM D 4541 adhesion to concrete</b>	>3 MPa
<b>Overapplication time at 22°C, 50% RH</b>	20 minutes minimum 60 minutes maximum
<b>Storage</b>	12 months from date of production if stored properly in original, unopened sealed packaging, in a dry place at temperatures between +5°C and +35°C.
VOC: 661 g/l
